Corrigendum – 2

Date : 04/11/2016

Name of the Work : - " Leasing of OFC Duct along the Road Network and space for Installation of Telecom Tower and other associated equipments"

With reference to NIT No. : EOI No. : 122 / TDL/ EEE / CE(E) / NRDA / 2016-17, Naya Raipur, Dated: 20.10.2016. Clarification based on Pre bid queries received is provided as follows:-

S.no.	Query/Comments of Bidder	Clarification
1	As per present EOI, there is no any certainty after three years. Our company's view is that once we install our network, it should be for long term (25 to 30 years) and as per industry practice. Occasionally 5% in every 3 years etc. We need some assurance from NRDA on this.	We are in receipt of your request regarding a long term lease we understand your concern and assure you that during the renewal of lease it shall be renewed on long term basis at the rates as determined from market forces by NRDA at that point of time. It is further confirmed that in case there are more number of bidder than the duct available in such cases first right of refusal shall rest with the incumbent leasee operators.
2	We require 50 Kms from existing duct of NRDA as per out network plan. Additionally we need 6 Kms of T&D for last mile towards connectivity of our required towers with existing duct plan.	Any additional duct/ROW required for the last mile connectivity in Naya Raipur shall be provided to the licensee operators at the rate as decided by NRDA.

The same shall form part of agreement. All other terms and condition shall remain same.
