1. INTRODUCTION

Background

The State of Chhattisgarh (CG) was created in the year 2000 while the city of Raipur was declared its capital. Raipur with its growing importance as the major node in trade network and a host of industries, has immense potential, however, the present city is constrained by availability of land, space and basic infrastructure. Considering the growth potential of the city and with a view to decongest the city, a new city is being developed as 'Naya Raipur', the green field capital city, at a distance of about 17 kms from the existing Raipur City. Its core area admeasures 8,013 ha. The planning area of Naya Raipur has been notified as a 'Special Area' under the 'CG Nagar Tatha Gram Nivesh Adhiniyam, 1973'. A Special Area Development Authority namely '**Naya Raipur Development Authority (NRDA)**' constituted under the said Act has been entrusted with the development, operation and maintenance of infrastructures of the new city.

1.1 THE PROJECT

NRDA intends to implement a Smart City project comprising design of IT enabled land management system, city surveillance and such other systems like, utility management, and other systems as may be necessary and possible using proven modern and state-of-the-art technologies.

The Smart City concept will have the following IT enabled systems:

- 2.2.5 Any entity which has been barred by any State / Central Government in India, or any entity controlled by them, from participating in any project, and the bar subsists as on the date of Proposal, would not be eligible to submit the Proposal. A self-declaration with regard to the same shall be submitted by the bidders. A proposal, without this particular filled-up and signed form, as required, shall be rejected.
- 2.2.6 An Applicant should have, during the last three years, neither failed to perform on any agreement, as evidenced by imposition of a penalty by an arbitral or judicial authority or a judicial pronouncement or arbitration award against the Applicant, nor been expelled from any project or agreement nor have had any agreement terminated for breach of contract by such Applicant.
- 2.2.7 While submitting a Proposal, the Applicant should attach clearly marked and referenced continuation sheets in the event that the space provided in the specified forms in the Appendices is insufficient.

2.2.8 Eligibility: The Applicants eligible for participating in the bid process shall be a Business Entity or Consortium of firms. The Term Applicant means an individual firm or Consortium as the case may be. For the purpose of this RFP document, a Business Entity shall mean a Sole Proprietorship Firm¹ / registered partnership firm² / a company³ registered in India under the Companies Act 1956.

2.2.9 Bidding through Consortium:

- i. Bidding through Consortium shall be allowed. Up to a maximum of 3 business entities can form a consortium for submission of proposal. A Consortium shall have to fulfill the Minimum Technical and Financial Eligibility Criteria using the collective experiences of all member firms of the consortium, subject to fulfillment of the following condition.
- ii. Every member firm of a consortium should have experience in at least one of the projects described under Minimum Technical Eligibility Criteria under Clause No. 2.2.2, except the following instance:
 - a. In the event all of the entities of a consortium are either subsidiary⁴ or parent⁵ firm of the lead member of the bidding entity, one of the member firms or all the firms jointly may fulfill the technical and financial eligibility conditions, which will be an exception to the requirement stated in Clause 2.2.9 (ii).
- iii. The objective of forming consortium should be only for enhancing technical and financial capability and resources, relevant to the eligibility conditions and scope of services. Consortium members shall submit a letter of association, clearly describing the intended role of each of the member firms in the relevant forms.

2.3 Conflict of Interest

The selected consultant shall not receive any remuneration in connection with the assignment except as provided in the Agreement. It should be the requirement of the consultancy contract that the consultants should provide professional, objective and impartial advice and at all times hold the NRDA interest paramount, without any consideration for future work, and that in providing advice they avoid conflicts with other assignments and their own corporate interests. Consultants shall not be hired for any assignment that would be in conflict with their prior or current obligations to other NRDA, or that may place them in a position of being unable to carry out the assignment in the best interest of the Employer. Without limitation on the generality of the foregoing, Consultants shall not be hired, under the circumstances set forth below:

¹ A Sole Proprietorship firm should furnish either the Sales/VAT/Service tax or IT returns for the last two financial years as proof of identity.

² A registered partnership firm should furnish registration certificate under the registrar of firms and the partnership deed executed between the partners as proof of identity.

³ A company should furnish certificate of incorporation and memorandum of association as proof of identity.

⁴ The bidding entity should hold more than 50% share in its subsidiary firm which is its consortium member

⁵ Parent firm should hold more than 50% share in the bidding entity which is its consortium member

- a) **Relationship with Employer's staff:** Consultants (including their personnel and sub-consultants) that have a business or family relationship with such member(s) of the Employer's staff or with the staff of the project implementing agency, who are directly or indirectly involved in any part of ; (i) the preparation of the TOR of the contract, (ii) the selection process for such contract, or (iii) supervision of such contract; may not be awarded a contract unless it is established to the complete satisfaction of the employing authority, for the reason to be recorded in writing, that such relationship would not affect the aspects of fairness and transparency in the selection process and monitoring of consultant's work.
- b) For avoidance of doubt, it is clarified that sale of goods, manufactured by the consultant, by the vendors, shall be allowed, if such vendors are selected as supplier through a competitive bid process
- c) To ensure a fair and proper process, and to avoid any actual or perceived conflict of interest, the following procedure will be followed in the project:
- (i) Any and all recommendations made by the Consultant, whether design documents, requirements documents, or otherwise, will be prepared in a manner which does not deliberately prefer any particular vendor's products/services over the products/services of competing vendors, the intention being that multiple vendors will be capable of bidding to supply products during the System Integration stage
 - (ii) Any recommendations made by the Consultant will be non-binding on NRDA
 - (iii) Post completion of the Consulting stage, NRDA intends to undertake an open industry consultation process on the recommendations made during the Consulting stage, to facilitate industry members raising concerns, if any, with the Consultant;
 - (iv) NRDA may undertake the open industry consultation independently, and the Consultant shall play no role in the industry consultation process (whether advisory, facilitating or otherwise), except only if called upon by NRDA to express opinions as an ordinary member of the industry or to present its report to the industry panel
 - (v) NRDA may, in its sole discretion, appropriately modify the recommendations in the Master plan before commencing the RFP/bidding process for a Master Systems Integrator to bring the best available talent available at that time and also to ensure free and fair competition between potential bidders and product vendors

2.4 Number of Proposals

An Applicant is eligible to submit only one Application for the Consultancy. An applicant applying individually shall not be entitled to submit another application.

2.5 Cost of Proposal

2.5.1 Cost of Proposal

The Applicants shall be responsible for all of the costs associated with the preparation of their Proposals and their participation in the Selection Process. The Authority will not be

responsible nor in any way liable for such costs, regardless of the conduct or outcome of the Selection Process.

Schedule – 1: TERMS OF REFERENCE (TOR)

Phase 1: Preparation of DPR and ICT Master Plan

The Smart City concept is intended to have the following IT enabled systems:

1. Land and Estate management system
2. City surveillance system
3. Utility management system and SCADA
4. Intelligent Transport System
5. All-digital and easy to- find, pay and use parking systems
6. City guide map available through web browser
7. Touch screens around the city
8. City level Wi-Fi
9. Display boards across the city for displaying real time information, including information of different services, including transport services
10. Applications for emergency alert and crisis response systems
11. Electrical charging stations, which may be supplemented by solar power
12. Traffic rerouting applications based on real time traffic data
13. Payments for different user charges through mobiles and other hand-held devices
14. Intelligent lighting systems
15. Intelligent rain water drainage system, fixed with indicators to send alert before the water logging / flood situation, with option for automatic valve opening system
16. Central Control Centre for monitoring all the services

1. Broad Objectives:

NRDA intends to prepare a Detailed Project Report for –

- a. City Surveillance System
- b. Land Management System
- c. Intelligent Transport System (ITS)
- d. Integrated SCADA System for Infrastructure
- e. Centralized Control Centre for monitoring and Control of the systems

2. Scope

The Detailed Project Report shall consist of Detailed Design and Implementation Mechanism for the Services enumerated in the broad objectives in separate and severable modules. The detail scope is as below -

- a. **City Surveillance System** : The city surveillance system shall have the following objectives:
 - i. Detection of unauthorized excavation and quarrying, constructions and encroachments, hoarding, advertisement boards and stoppage thereof;
 - ii. Detection of and protection from theft / spoiling / vandalizing of public utilities and goods

- iii. Protection the roads, footpaths and street furniture, display boards, street lights, water supply, sewerage, power supply and distribution networks and installation, bus shelters, etc.
 - iv. Protection of landscape areas, plantation, trees, vegetation, gardens and parks
 - v. For restricting entry of unauthorized vehicles within the city
 - vi. Creation of a database of the public infrastructure to protect those from theft
- b. **Land and Estate Management System** : The scope shall include:
- i. Integration of all land related data
 - ii. Create land management system with both spatial and non-spatial data. The Spatial data indicates the rights and boundaries with respect to the particular survey no. and non-spatial data represents the rights with respect to the survey no. as on the day of survey
 - iii. Creation of a database of the public infrastructure
 - iv. The scope shall include design of a system, which should be capable of the following:
 - I. Tracking submission and process of approval of the building plans
 - II. Checking of ownership of land and submission of property tax through website
 - III. Application, processing and approval for utility connection through website, along with payment of user charges
 - IV. Online submission of grievances through website
 - V. Online showing status of various applications, grievances and approvals
 - VI. Integration of the utility services with the land management system and ultimately creating two user interfaces – one for use of NRDA and the other for the land owners / city dwellers, which may be accessed by them through a website for seeing the status of land ownership and land use and associated urban services (like water, sewerage etc.), for submitting application for connection, depositing fees for those and also for paying user charges for urban services and for paying land related payments (like lease premium, lease rentals, license fees etc.).
 - VII. Development of an integrated website which should show geo-referenced map of Naya Raipur with descriptions such as:
 - (a) Street view with names / numbers
 - (b) Land parcels views with its ownership and history
 - (c) Public transport routes with stoppages
 - (d) Driving routes and distances from one point to another point
 - (e) Travel routes by public transport and walking and distances with alternatives from one point to another point
 - (f) Social & recreational infrastructure
 - (g) Government offices
 - (h) Police stations, fire stations with contact numbers
 - (i) Schools
 - (j) Hospitals and other health care infrastructure
 - (k) Facility of drawing lines, polygons, text on the map with color options with option for saving and printing
 - (l) Measuring of distances, routes with respective choice of units
 - (m) Option for searching a particular location,

building etc., with instant suggestions (n) Option for zooming into the map upto plot level (o) Option for posting enquiry by users (p) Connectivity of the website with all mobile application platforms (q) Option of lodging information about any incident, fire, accident, water logging, traffic jam, littering, vandalizing etc. with option of uploading photograph or video.

C. NRDA expects design of a Utility Management system (UMS) in place with citizen and other stakeholders interface.

- i. The aim of the UMS will be to facilitate the operating staff to carry out online operation and maintenance of all utilities.
- ii. It will also monitor online the intended outputs from each services on day to day basis
- iii. Updated technologies like, SCADA with PLC or such other tools shall be suggested after due analysis by the consultant.
- iv. The system will take care of water supply, sewerage, street lighting, roads and solid waste management initially but not limited to these only.
- v. At the apex level the system will enable officers to assess the performance of each citizen centric basic service and leave instructions for remediating any deficiency. IT cum management tools shall be applied for this purpose.
- vi. A citizen charter shall be suggested fixing performance indicators for each service and will be integrated with the proposed IT enabled system.

d. Intelligent Transport System (ITS) : The scope shall include design of system with the following components-

- i. Automatic signaling system which will automatically alter the cycle time depending on the traffic queue on a particular street
- ii. Integrated signaling system for the pedestrian and non-motorized transport
- iii. Use of camera for enforcement of traffic rules at least for the following:
 - a. Speed cameras that identify vehicles traveling over the legal speed limit. Many such devices use radar to detect a vehicle's speed or electromagnetic loops buried in each lane of the road.
 - b. Cameras at signals that detect vehicles crossing a stop line or designated stopping place while a red traffic light is showing.
 - c. Bus lane cameras that identify vehicles traveling in lanes reserved for buses.
 - d. Level crossing cameras that identify vehicles crossing railways at grade illegally.
- iv. Integration of traffic signal system of the entire city, such that all can be automated and can be operated and monitored remotely from a single control center
- v. Integration of ITS for BRTS (which is being implemented separately under SUTP) with the subject components

e. Integrated remote monitoring (like, SCADA System) for Infrastructure: Design and integration specification to meet following objectives

- i. Design and integration of SCADA with that of the components which are being implemented for management and monitoring of water collection and distribution system – for monitoring of pressure, flow data, leakage etc. and also to monitor the automatic metering of end users
- ii. Design and integration with SCADA for sewerage system including the waste treatment plants
- iii. Design and integration with SCADA of power distribution system
- iv. Intelligent street lights, landscape and public area lighting system with sensors for energy efficiency
- v. System of detection of fire at vital installations and fire alarm

f. The design of the components should be such that those can be scaled up in future and also can be integrated with applications of other departments. The Consultant shall ensure availability of necessary data, information; sources shall remain available with NRDA for such purposes in future

NRDA intends to set up a centralized control center for all of the above services with following objectives:

- i. The centralised Control Centre shall receive real time information from all hardware setup across the city
- ii. The Control centre shall be equipped to process review and analyse the real time information received. It will also collect and manage data, control and monitor systems, and shall ensure prompt response at the time of emergencies
- iii. To forward the information to appropriate authorities, in the events of abnormality/emergencies and for any decision on corrective / preventive actions
- iv. This control centre would be the first point of contact for the citizens of Naya Raipur
- v. Provide single view and control of the entire city to the operator
- vi. It will provide unified channels for easy management for multiple systems

Phase II: Preparation of Bid Documents and assist in procurements

Preparation of bid documents and assisting NRDA in the bid process for selecting the successful bidder for implementation of the project.

This task includes the following scope.

1. Planning of the selection process
 - a. Stakeholder consultation and analysis
 - b. Setting up arrangement within the NRDA to manage the process
 - c. Analytical and advisory work required.
2. Involving stakeholders in the design of the arrangement
 - a. Identifying stakeholders.
 - b. Developing an effective strategy for engaging stakeholders
 - c. Organizing meetings, Seminars, Workshop to interact with different groups of stakeholders
 - d. Identifying winners and losers under different options

- e. Assisting in drafting replies / responses to the Press/Media/RTI
- f. To developing a consensus of proposal for approval through media interaction
3. Defining upstream policy
 - a. Allocating responsibilities among the different levels of NRDA
 - b. Determining the appropriate market structure
 - c. Establishing rules for competition
4. Defining service standards, tariffs, subsidies and financial arrangements.
 - a. Setting a service goal
 - b. Estimating the cost of service
 - c. Determining the mix of tariffs and subsidies
 - d. Implications for design of the arrangement
 - e. Accessing and structuring finance for investment.
5. Preparation of Contract agreement, implementation schedule, performance measurement mechanism, Liability and Performance Enforcement, Insurance, Disputes Resolution, Penalties and Liquidated Damages, Risk Allocation & Mitigation of Risk.
6. Selecting a Master System Integrator / System Integrator(s)
 - a. Choosing a selection method & developing bid documents covering PQ documents / LOI / RFP / RFQ / CA / Evaluation criteria / Marking.
 - b. Setting up of the selection criteria and for conducting pre – proposal meeting.
 - c. Assisting the Corporation in the bidding process i.e., Evaluation of Technical & financial bids.
 - d. Dealing with other issues relating to the selection of a successful bidder.
7. Selecting a Project management and supervision firm for supervising and monitoring the performance of the Master System Integrator and also for overseeing the specifications worked out by the MSI, procurement process, implementation, testing and commissioning and handholding NRDA during the first 6 months period after commissioning, when the MSI will train NRDA personnel in operating the systems.
 - a. Choosing a selection method & developing bid documents covering PQ documents / LOI / RFP / RFQ / CA / Evaluation criteria / Marking.
 - b. Setting up of the selection criteria and for conducting pre – proposal meeting.
 - c. Assisting the Corporation in the bidding process i.e., Evaluation of Technical & financial bids
 - d. Dealing with other issues relating to the selection of a successful bidder.

f. Deliverables:

(1) Inception Report: The Consultant shall prepare an Inception Report which shall comprise of the following:

- a. **Project appreciation**, including understanding of assignment
- b. **Detailed methodology** to meet the requirements of the TOR; including scheduling of various activities to be carried out for completion of various stages of the work; stating out clearly their approach & methodology for project preparation
- c. Task Assignment and manning Schedule indicating Deal Team and Manpower Commitment.
- d. Performa for data collection for various surveys/studies;

(2) Base line report:

The Consultant will carry out a survey to confirm the existing situation / capacity of NRDA in terms of availability of hardware, existing data transmission capacity, list of inputs etc.

(3) Case Studies: The Consultant shall study 3 cities at national / international scope (with at least one international case study), where smart city management system (where at least 2 of the subject components are operational), including ITS and most modern surveillance system with, Utility / urban infrastructure management system, land / estate management system, similar to the objectives described above have been successful implemented and being successfully operated and shall prepare case studies describing the minimum of the following:

- a. Details of the city – Location, Area in Sq. Km, Population, name and contact details of the authority which implemented the system
- b. Components of the surveillance system
- c. Use of IT in the systems
- d. Cost of the systems
- e. Duration of implementation
- f. Objectives and benefits of the system
- g. Tentative project cost
- h. Broad technical specifications of the system
- i. What the systems delivers and their cost of operation

(4) Detailed Project Report (DPR) for the components mentioned above: The Consultant shall prepare a Design Report for the above mentioned components under serial number 1 of this terms of reference for Naya Raipur, which shall comprise of the following:

A. Land and estate management system

- i. The consultant shall recommend procurement of the latest satellite images and perform Geo-referencing, integration and validation of the Land-use area under the Layer 1 of Naya Raipur Development Plan 2031
 - a. NRDA shall provide the scaled drawing of already-built road network of Naya Raipur in AutoCAD format, as per as-built condition
 - b. The consultant shall prepare methodology for extending the geo-referencing up to the plot level from the geo-referenced sectors and superimpose the already planned layouts provided by NRDA in AutoCAD format.
 - c. The Consultant shall propose design a system that is scalable, such that different maps, tools, can be integrated with the system and also to import satellite images, if required by NRDA
 - d. The consultant shall recommend
 - i. superimpose such drawing on the procured satellite image and do the ground truthing (verification of co-ordinates at site level by geo referencing), through which the validated map for layer-1 of Naya Raipur shall be generated
 - ii. Once the roads are correctly geo-referenced the consultant shall prepare Naya Raipur Land use map with geo-referenced sectors and verify & record the changes

- e. The consultant shall prepare methodology and specification for data base management system for collecting and preserving following data for each and every plot:
 - i. Co-ordinates
 - ii. Land use
 - iii. Ownership and history of change of ownership
 - iv. Building plan submission and sanction dates, with the image of approved building plan
 - v. Category for the purpose of computation of property tax
 - vi. Payment history for property tax
 - vii. Payment details of annual lease rental
 - viii. Availability of unban infrastructure, like, connection for water, sewerage etc., status of application requesting connection, submission of connection fee, history of disconnection, payment of application fee, payment history of user charges etc.
- ii. The consultant shall prepare methodology and specification for a website linking to the data base. The website shall be used by NRDA, as well as by the residents of Naya Raipur. Following are the minimum features shall be available to the dwellers of Naya Raipur through the website:
 - a. Co-ordinates of one's plot
 - b. Land use
 - c. History of change of ownership of plot / dwelling unit and data related to the mutation of a property
 - d. Property tax details and status of payment. Payment can be done through website. Reminder for payment shall be reminded to the registered users through e-mail and mobile message
 - e. Status of application for approval of building plan for individuals and developers through on line using latest softwares available and if not available, develop such a software at micro level and macro level
 - f. Status of payment of annual lease rental. Payment can be done through website. Reminder for payment shall be reminded to the registered users through e-mail and mobile message
 - g. Availability of unban infrastructure in any plot, like, connection for water, sewerage etc., status of application requesting connection, submission of connection fee, history of disconnection, payment of application fee, payment history of user charges etc.
- iii. The consultant shall prepare requirement of hardware and software for hosting the website and the maintaining the data base, along with the human resource required with their skill sets.
- iv. In addition, the consultant shall assist NRDA in selection of a System Integrator and also selecting a firm for supervising the works of the System Integrator, as was mentioned in the published RFP.

B. NRDA expects design of a Utility Management system (UMS) in place with citizen and other stakeholders interface.

- i. The aim of the UMS will be to facilitate the operating staff to carry out online operation and maintenance of all utilities.

- ii. It will also online monitoring of the intended outputs from each service on day to day basis-this portion supposed to be used by the officers responsible for the provision of services.
- iii. Updated technologies like, SCADA with PLC or such other tools shall be suggested after due analysis by the consultant.
- iv. The system will take care of water supply, sewerage, street lighting, roads and solid waste management initially but not limited to these only.
- v. At the apex level the system will enable officers to assess the performance of each citizen centric basic service and leave instructions for remediating any deficiency. IT cum management tools shall be applied for this purpose.
- vi. A citizen charter shall be suggested fixing performance indicators for each service and will be integrated with the proposed IT enabled system.

C. City surveillance system: NRDA expects design of a City surveillance system

- (i) Survey of Naya Raipur city with respect to the following:
 - a. Identification of road network – both village roads and newly constructed roads for using for the purpose of patrolling, including their width and conditions for movement of vehicles, two wheelers etc., for the purpose of patrolling
 - b. Entry and exit points in the city to be monitored,
 - c. Location of vital installations, street furniture etc. to be secured
 - d. Location of bus shelters, display boards, equipment to be secured
 - e. Landscape areas to be protected
 - f. Natural resources to be protected, like trees from cutting, soil from excavation, quarrying etc.
 - g. Creation of a database of the public infrastructure to protect those from theft
 - h. Existing capacity of data transmission system
- (ii) Prepare strategy for city wide surveillance in consultation with NRDA
- (iii) Analyze the requirement and applicability of IT enabled equipment
- (iv) Recommend use, number and location of use of equipment for automated / semi-automated surveillance system
- (v) Recommend extent of use of IT enabled surveillance system, along with their requirement, application areas and use, in consultation with NRDA
- (vi) Recommend a comprehensive list of human resources and equipment to be deployed with their specifications and numbers
- (vii) Recommend communication devices required for communication of personnel deployed at different locations and also with the patrolling teams with the control centre
- (viii) Recommendation of a system that can be used for maintaining comprehensive logs of security breaches and generation of periodical reports, including action taken. The system should also be able to generate orders, notices etc. in prescribed formats, which can be pre-entered into the system
- (ix) Recommend integration with police department, fire department and ambulance
- (x) Recommend hierarchical structure of the operation agency
- (xi) Recommend qualification, experience, skills / trainings required for the personnel at each hierarchy of the operation agency and personnel to be deployed as a part of guard, patrolling team, operators at control center and the manager

D. Design and integration specification of SCADA or similar intelligent system with that of the components which are being implemented for the purpose of management and monitoring of water collection and distribution system – for monitoring of pressure, flow data, leakage etc. and also to monitor the automatic metering of end users.

- i. The SCADA with PLC or other IT enabled system shall be capable of monitoring the quantity of water taken from source and that distributed up to household level.
- ii. All electrical parameters of pumps and equipment shall be monitored remotely and operated by appropriate and authorised staff.
- iii. Reading of water levels in reservoirs to ensure 24/7 distribution shall be integrated by smart metering with remote control facilities.
- iv. Water quality monitoring shall be done and results put on web through a dynamic software.
- v. A mobile system, with vehicle shall ensure quick response time or reaction time in attending leaks or responding to public grievances on line.
- vi. A website shall be created facilitating public grievances in respect of water supply leaks or other complaints, sewerage system related complaints and breaks, street light related complaints on non burning lights, complaints related to non clearing of garbage from places and such other grievances. An auto response system will be examined.

E. Design and integration specification with SCADA of Sewerage system including the waste treatment plants

- (i) Study the water collection and distribution network, sewerage network, engineering and the system
- (ii) Study the concession agreement for the developer responsible for implementing the water supply and sewerage project for understanding the specifications, responsibilities, time frame etc. also in discussion with the NRDA and the engineers of developer and the project management consultant
- (iii) Understand the phasing of development of the city and development pattern
- (iv) Study, analyze and recommend the technology for meeting the objectives with integration with that of the sections which are at present under implementation

F. Design and integration specification with SCADA of power distribution system

- (i) Study the power distribution network, engineering and the system
- (ii) Study the contract documents for the developer/contractor responsible for implementing the power supply project for understanding the specifications, responsibilities, time frame etc. also in discussion with the NRDA and the engineers of developer/contractor and the project management consultant
- (iii) Understand the phasing of development of the city and development pattern
- (iv) Study, analyze and recommend the technology for meeting the objectives with integration with that of the sections which are at present under implementation

G. Design of Intelligent street lights, landscape and public area lighting system with sensors for energy efficiency

- (i) Study the road network, landscape, recreational area and public spaces in Naya Raipur
- (ii) Understand the phasing of development of the city and development pattern
- (iii) Study, analyze and recommend the technology for meeting the objectives

H. Design of System of automatic detection of fire at vital installations and fire alarm

- (i) Study the Naya Raipur city
- (ii) Understand the phasing of development of the city and development pattern
- (iii) Study, analyze and recommend the technology for meeting the objectives

The consultant shall prepare the following for all of the above components, as part of the DPR:

- (i) Decide the detailed architecture and the requirement of software
- (ii) Cost analysis and preparation of budget
- (iii) Recommend application areas for the entire city, along with recommended phasing of implementation
- (iv) Prepare complete technical specifications and Bill of Quantities
- (v) Prepare necessary drawings – General Arrangement Drawings, Good for Construction Drawings etc.
- (vi) Study Naya Raipur Development Plan, all applicable and relevant guidelines, rules, and regulations
- (vii) Suggest technology options with SWOT analysis of each options, life of equipment, suggested to be installed, location of application of each of those, cost of replacement, capital cost and operation cost; Equipment to be chosen such that they can be integrated and upgraded in future.
- (viii) Recommend location of centralized control center, in consultation with NRDA.
- (ix) Recommend built-up area required for control center
- (x) Prepare design of control center, including General Arrangement Drawings and good for construction drawings
- (xi) Recommend mode of data communication from devices, installed at different locations in Naya Raipur with the Control Centre
- (xii) Recommended most optimal solution supported with detailed analysis along with details of technical and financial parameters
- (xiii) Separate block cost estimate of individual project components, structures, equipment vehicles, etc., including barriers, search lights, alarm, communication equipment, etc., along with their specifications
- (xiv) Market survey for the identification of the prospective operators / implementing agencies, suppliers of recommended equipment (at least 3 suppliers for each type of equipment).
- (xv) Social and Environmental Impact Assessment Study
- (xvi) Identifying and listing the requirements of all the statutory clearances/approvals required for setting up the project.

- (xvii) Submit a comprehensive report and modify the report incorporating the suggestions of NRDA, with the above descriptions
 - (xviii) Assist NRDA in documentation for stake holder consultation and also in presentations related to that
- g. **Preparation of Request for proposal documents for selection of System Integrator(s) and assist in bid process management:** The Consultant shall prepare the Request for Proposal (RFP) documents for procurement of System Integrator(s) and shall also assist in bid process management:
- (i) Preparation of Project Information Memorandum, Instruction to Bidders with bidding formats, contract agreements with obligations of operator and etc. for selection of System Integrator(s), through competitive bidding process, on the basis of basic principles of competitive bidding
 - (ii) Assist the Authority in pre-bid meets and responding pre-bid queries. The expenses of Pre-Bid Meet shall be borne by the NRDA.
 - (iii) The Consultant shall be responsible to prepare Bid evaluation Report and shall submit the report to the Authority with its recommendation.
 - (iv) The Consultant shall facilitate the issue of LoA to the Selected Bidders, shall finalize the Agreements and shall also facilitate the signing of Agreements between the Authority and the Selected Bidders
 - (v) Assist and facilitate Authority in complete bid process management, including all documentation, marketing of the Project etc.
- h. **Preparation and submission of draft legislation:** The Consultant shall prepare a draft of legislation for the implementing / operating agency, with following objectives:
- a. To describe the legal status of the operating agency
 - b. To laid down the procedure of operation for the agency and the legal framework for the same
 - c. To describe the rights and obligations of the agency
 - d. To clearly describe the interdependencies between the agency and the Police
 - e. An organization structure and reporting hierarchy for the mechanism of the system shall also be designed by the Consultant as a part of it
- i. Preparation and submission of Request for Proposal documents for selection of System Integrator(s), with technical schedules, contracts, draft of replies of pre-proposal queries, bid evaluation report with recommendations, Draft of Letter of Award and related documents
- j. Preparation and submission of Request for Proposal documents for selection of project supervision and management consultant (PSMC), with technical schedules, contracts, draft of replies of pre-proposal queries, bid evaluation report with recommendations Draft of Letter of Award and related documents

The approval to the various studies, reports and other related works undertaken by the Consultant for achieving over all objectives shall be accorded by the Authority.

k. Time Frame & Deliverables:

Time schedule for the consultancy work will be as follows:

S. No.	Description	Duration from the date of execution of Agreement
1	Submission of Inception Report	1 month from the date of execution of Agreement
2	Submission of draft legislation	3 months from the date of execution of Agreement
3	Submission of Final legislation	1 month after the date of last set of comments received on the Draft Legislation
4	First submission of Base Line Report	3 months from the date of execution of Agreement
5	Final submission of Base Line Report	1 month after the date of last set of comments received on the Base Line Report
	First submission of Draft DPR and ICT Master Plan for all components	6 months from the date of approval of the Base Line Report
	Final submission of DPR and ICT Master Plan	1 month after the date of last set of comments received on the Draft DPR
	First submission of RFP(s) for procurement of master system Integrator (MSI), which would comprise of Project Information Memorandum, Instruction to Bidders with bidding formats and draft agreement with technical schedules	1 month after approval of the Final DPR
7	Final submission of RFP(s) for procurement of master system Integrator, which would comprise of Project Information Memorandum, Instruction to Bidders with bidding formats and draft agreement with technical schedules	2 weeks after the date of last set of comments received on the Draft RFP(s) for procurement of master system Integrator
8	First submission of RFP for procurement of project supervision and management consultant (PSMC) for supervise the works of the MSI, implementation, testing & commissioning activities, checking and certifying bills and for assisting NRDA to achieve the desired quality and timely execution of works	1 month after approval of the Final DPR
9	Final submission of RFP for procurement of project supervision and management consultant (PSMC) for supervise the works of the MSI, implementation, testing & commissioning activities, checking and certifying bills and for assisting NRDA to achieve the desired quality and timely execution of works	2 weeks after the date of last set of comments received on the Draft RFP for procurement of PSMC

Note:

- (i) Consultant shall be required to complete the job to the satisfaction of the Authority within the prescribed time frame.
- (ii) Any other activity not specifically mentioned but that may be required for the successful project development and selection of implementing agencies / vendors, successful testing & commissioning of the entire system shall have to be undertaken by the Consultant.

I. Services and Submittals of Report

All reports, documents and drawings are to be submitted for entire project. The analysis of data and the conceptual design, block estimate of costs shall be based on the data derived from the Land surveys and investigations, studies carried out during the period of assignment. The sources of data and model relationships used in the reports shall be indicated with complete details for easy reference.

m. Reports and documents to be submitted by the Consultant to NRDA

The consultant shall submit to NRDA the reports and document in English language in bound volumes (and not spiral binding form) after completion of each stage of work as per this schedule and in at least three numbers of copies. Further, the reports shall also be submitted in CD's in editable formats in addition to the hard copies as mentioned. Consultant shall submit all reports mentioned specifically in the preceding paras of the TOR.

The time schedule for various submissions prescribed at Deliverables and Time Frame above shall be strictly adhered to. No time-over-run in respect of these submissions will ordinarily be permitted.

n. Activity Schedule

An activity schedule of various activities shall be provided by the Consultant to Authority and the activity schedule approved by the Authority (the "**Activity Schedule**") shall form a part of the Agreement. Prior intimation shall be given to Authority by the Consultant regarding start of key activities such as soil investigation and land survey etc.

o. Data and Software

The CD's/DVD's containing all basic as well as the processed data from all field studies and investigations, report, appendices, annexure, documents and drawings shall be submitted to AUTHORITY in editable formats at the time of the submission of the Final Report. The data can be classified as follows:

- (i) **Engineering Investigations:** Material Investigation including test results for soils, topographic survey, Sub-soil Exploration, Drainage system of sites, where ever required
- (ii) **Reports including DPRs:** All reports including the Detailed Project Reports shall be submitted in hard copies as well as in editable soft copies

- (iii) **Drawings:** All drawing data would be supplied in suitable format along with complete reference so that the data could be imported into any standard design software.
- (iv) **Block Cost Estimate:** The Consultant shall submit the block cost estimate for various works item including the data developed on computer in this relation so that it could be used by the Authority later for the purpose of updating the cost of the project.
- (v) **Budget, Economic and Financial Analysis:** Detailed calculation in MS Excel format to be submitted in soft copies

Software: The Consultant shall also hand -over to AUTHORITY DVD's/ CD's containing any general software including the financial model (in editable format) which has been specifically developed for the project.

The DVD's/CD's should be properly indexed and a catalogue giving contents of all floppies/CD's and print-outs of the contents (data from field studies topographic data and drawings) should be handed over to AUTHORITY at the time of submission of the Final Report.

p. Scope of work of System Integrator(s) [for information only]:

- (i) Develop details specification of the system
- (ii) Submit activity schedule with schedule of finalization of specifications, procurement, installation, testing & commissioning
- (iii) Prepare tender documents and assist NRDA in bid process management for procurement of hardware, equipment, software, service providers, civil contractors, site supervision consultants etc.
- (iv) Assist NRDA in pre-bid meetings, drafting reply to pre-bid queries, writing and finalizing contract documents etc.
- (v) Manage the entire supply of goods, co-ordinate with manufacturers
- (vi) Implement the systems
- (vii) Test and commission the systems
- (viii) Prepare training and user manuals in Hindi and English
- (ix) Provide theoretical and on-job training to NRDA personnel
- (x) Resubmissions after required modifications, as may be desired by the Consultant / NRDA
- (xi) Submit monthly progress reports every month during its contract period
- (xii) Assist NRDA in preparing presentations, concept notes, in stakeholder consultations, in awareness programs etc.

SCHEDULE – 2 - **Draft of Contract Form**

CONTRACT FOR CONSULTANCY SERVICES

Between

.....
[name of Client]

and

.....
[name of Consultant]

Draft of Agreement for Consultant for preparing Detailed Project Report & ICT Master Plan and assist in procurements for designing Naya Raipur as Smart City”

This AGREEMENT (hereinafter referred to as the “Agreement”) is made on the _____ day of the month of _____ 20__ between, on the one hand, the NAYA RAIPUR DEVELOPMENT AUTHORITY (NRDA) having its office in front of Mahanadi Dwar of Mantralaya, Raipur, Chhattisgarh (hereinafter referred to as the “**the Authority**” which expression shall include their respective successors, unless the context otherwise requires) and, on the other hand, _____ - (hereinafter referred to as the “**Consultant**” which expression shall include their respective successors and permitted assigns).

- A. The Authority vide its Request for Proposal (RFP) for providing certain Consultancy Services as defined in this Agreement (hereinafter referred to as the “**Consultancy**”) **for providing services related to designing and supervising implementation of City Surveillance System and Land Management System for Naya Raipur, Chhattisgarh**, as defined in RFP document (hereinafter referred to as the “**Project**”).
- B. The Consultant submitted its proposals for the aforesaid work, whereby the Consultant represented to the Authority that it had the required professional skills, and in the said proposals the Consultant also agreed to provide the Services to the Authority on the terms and conditions as set forth in the RFP and this Agreement; and
- C. The Authority, on acceptance of the aforesaid proposals of the Consultant, awarded the Consultancy to the Consultant vide its Letter of Intent dated _____ (the “**LOA**”);
- D. The Consultant acknowledged the LOA on _____ [date] and submitted Performance Security through _____, No. _____, dated _____ of amount _____; and
- E. In pursuance of the LOA, the parties have agreed to enter into this Agreement.

NOW, THEREFORE, the parties hereto hereby agree as follows:

1. GENERAL

1.1 Definitions and Interpretation

- 1.1.1 The words and expressions beginning with capital letters and defined in this Agreement shall, unless the context otherwise requires, have the meaning hereinafter respectively assigned to them:
- a) "Applicable Laws" means the laws and any other instruments having the force of law in India as they may be issued and in force from time to time;
 - b) "Agreement" means this Agreement, together with all the Annexes;

3. OBLIGATIONS OF THE CONSULTANT

3.1 General

3.1.1 Standards of Performance

The Consultant shall perform the Services and carry out its obligations hereunder with all due diligence, efficiency and economy, in accordance with generally accepted professional techniques and practices, and shall observe sound management

practices, and employ appropriate advanced technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Agreement or to the Services, as a faithful adviser to the Authority, and shall at all times support and safeguard the Authority's legitimate interests in any dealings with Third Parties.

3.1.2 Terms of Reference

The scope of Services to be performed by the Consultant are specified in the Terms of Reference (the "TOR") at Annexure-A of this Agreement. The Consultant shall provide the deliverables specified therein in conformity with the time schedule stated therein.

3.1.3 The time schedule for the services specified herein is exclusive of the time required for approval by the client at various stages.

3.1.4 In case of delay caused due to any reasons except due to the default of consultant, the period of service agreement shall be extended with or without additional fees which may be decided by NRDA.

3.1.5 Applicable Laws

The Consultant shall perform the Services in accordance with the Applicable Laws and shall take all practicable steps to ensure that all Personnel and agents of the Consultant comply with the Applicable Laws.

3.2 Conflict of Interest

The selected consultant shall not receive any remuneration in connection with the assignment except as provided in the Agreement. It should be the requirement of the consultancy contract that the consultants should provide professional, objective and impartial advice and at all times hold the NRDA interest paramount, without any consideration for future work, and that in providing advice they avoid conflicts with other assignments and their own corporate interests. Consultants shall not be hired for any assignment that would be in conflict with their prior or current obligations to other NRDA, or that may place them in a position of being unable to carry out the assignment in the best interest of the Employer. Without limitation on the generality of the foregoing, Consultants shall not be hired, under the circumstances set forth below:

- a) **Relationship with Employer's staff:** Consultants (including their personnel and sub-consultants) that have a business or family relationship with such member(s) of the Employer's staff or with the staff of the project implementing agency, who are directly or indirectly involved in any part of ; (i) the preparation of the TOR of the contract, (ii) the selection process for such contract, or (iii) supervision of such contract; may not be awarded a contract unless it is established to the complete satisfaction of the employing authority, for the reason to be recorded in writing, that such relationship would not affect the aspects of fairness and transparency in the selection process and monitoring of consultant's work.

- b) For avoidance of doubt, it is clarified that sale of goods, manufactured by the consultant, by the vendors, shall be allowed, if such vendors are selected as supplier through a competitive bid process
- c) To ensure a fair and proper process, and to avoid any actual or perceived conflict of interest, the following procedure will be followed in the project:
 - (vi) Any and all recommendations made by the Consultant, whether design documents, requirements documents, or otherwise, will be prepared in a manner which does not deliberately prefer any particular vendor's products/services over the products/services of competing vendors, the intention being that multiple vendors will be capable of bidding to supply products during the System Integration stage
 - (vii) Any recommendations made by the Consultant will be non-binding on NRDA
 - (viii) Post completion of the Consulting stage, NRDA intends to undertake an open industry consultation process on the recommendations made during the Consulting stage, to facilitate industry members raising concerns, if any, with the Consultant;
 - (ix) NRDA may undertake the open industry consultation independently, and the Consultant shall play no role in the industry consultation process (whether advisory, facilitating or otherwise), except only if called upon by NRDA to express opinions as an ordinary member of the industry or to present its report to the industry panel
 - (x) NRDA may, in its sole discretion, appropriately modify the recommendations in the Master plan before commencing the RFP/bidding process for a Master Systems Integrator to bring the best available talent available at that time and also to ensure free and fair competition between potential bidders and product vendors

3.3 Confidentiality
